

## **Government closes 23 prefectures: on 22 September part mobilization**

**The government closes 23 Prefectures. The unions mobilize against the decree: 22 September assemblies in the offices at risk. Cgil Cisl Uil: "In a moment of maximum emergency, the State retreats". In Sardinia the closure of the Prefecture of Oristano.**

**14-09-2015**

Roma, 10 September 2015. "In a moment of maximum emergency in matters of management of immigration and security, the government thinks of closing 23 Prefectures. A retreat unacceptable for the State from the territory, which risks leaving citizens and workers in chaos. A very harsh criticism from Fp-Cgil, Cisl-Fp and Uil-Pa to the draft of the Dpr on the new organization of the Ministry of the Interior, sent last night by the government to the trade union organizations.

A provision "hasty and premature" for the three weeks, which anticipates moreover the decrees of the Madia Reform, closing 23 offices of the Prefect: Teramo, Chieti, Vibo Valentia, Benevento, Piacenza, Pordenone, Rieti, Savona, Sondrio, Lecco, Cremona, Lodi, Fermo, Isernia, Verbano-Cusio-Ossola, Biella, Oristano, Enna, Massa-Carrara, Prato, Rovigo, Asti and Belluno.

"In spite of the announcements, in fact this government adopts measures of real and proper downsizing of the presidencies of legality and security on the territory. Disregarding completely the workers of the Prefectures, of which in the draft of the Dpr one does not even speak, but above all of the citizens and of the local communities, who will be left alone."

"We will respond with force. The reorganization of services on the territory is not done by dismantling the State and leaving in uncertainty the personnel that serves to guarantee social cohesion, integration and civil coexistence. For this on Tuesday 22 September we will hold assemblies simultaneously in all 23 Prefectures at risk of closure, inviting parliamentarians and local politicians and sensitizing information organs, public opinion and citizens."
